

Priyam Rai

Email: [Your Email] | Phone: [Your Phone Number]

LinkedIn: <https://www.linkedin.com/in/priyam-rai-613470308>

Education

B.Tech in Computer Science & Engineering (AI & ML)

[Your University Name], [City]

Expected: [Month, Year] (3rd Year)

Projects

- Diabetes Prediction System

Led a team project to develop a system using machine learning for early diabetes detection.

Tools: Python, Scikit-learn, Streamlit.

- Heart Disease Prediction System

Built a predictive tool for heart disease diagnosis using ML classifiers.

Tools: Python, Pandas, Matplotlib, Flask.

Skills

Languages: C, C++, Python, Java, MATLAB

Technologies: SQL, Cloud Computing (AWS basics)

Domains: Machine Learning, Data Analysis

Certifications

- MATLAB Onramp - MathWorks

- Cloud Computing - NPTEL (IIT Kharagpur)

- Machine Learning with Python - Coursera (IBM)

Achievements & Roles

- Project Lead for multiple AI-based systems

- Active member of coding and AI/ML communities on campus
